PDF Barcode Creator is a best barcode creator that is capable of creating a wide variety of the most popular types of barcodes for your needs. The software is very easy to use and can generate all the popular barcode symbologies. PDF Barcode Creator has a user-friendly interface and produces good-quality barcodes from your original PDF document. Creating barcodes is extremely easy: just

choose the required type of barcode, select the required font type and give a name to the barcode. There is also a PDF toolbar to help you with further editing: you can easily change background color, text font size and type, add labels and logos to your barcode, crop the barcode using the toolbar, insert barcode into an existing PDF document or add a watermark. The software supports both Portable Document Format (PDF) and PostScript (PS) documents. PDF Barcode Creator includes most of the popular barcode symbologies: EAN-13, EAN-8,

UPC-A, UPC-E, Code-39, Code-128, Code-93, DataMatrix, Interleaved-2 of 5, Interleaved-2 of 3 and Interleaved-2 of 9. Additionally, the software supports the printable PDF format which can be used as an alternative to standalone portable document format (PDF). The software supports an unlimited number of the most popular and unique fonts, not only the standard fonts available in many Windows systems. This feature helps you easily to use the same font in different documents. How to generate PDF Barcode? 1. Select the

required symbology. 2. Choose the number of bars. 3. Define the required printing area. 4. Select the required text: you can choose from pre-defined text or write your own. 5. Drag and drop a logo image to create a custom watermark. 6. Select a desired color for background and text. 7. Use the toolbar to edit the barcode. 8. You can save the barcode to a file with the PDF extension (useful to paste the barcode into other applications like Microsoft Word, Excel, Paint, etc.!) 9. The toolbar includes a handy crop tool to easily set desired portions of a page.

Features: - Generate over 20 different types of code and combine them to create the barcode of your choice - Make the maximum capacity of the barcode greater than 3 digits: up to 7 digits
